FULL STACK DEVELOPER | SOFTWARE ENGINEER

Developer with 3+ years of experience in software engineering and automation, now focused on building modern, end-to-end web applications using React, Node.js, and MySQL. Combines a strong foundation in coding, testing, and CI/CD with a passion for creating scalable, reliable, and user-centric software within collaborative Agile teams.

EXPERIENCE

Senior Software Engineer – SDET | *Royal Bank of Canada (via Capgemini Inc.) | Jan 2025 – Aug 2025*

- Led two Agile automation teams, defining test automation standards, mentoring junior developers, and streamlining CI/CD pipelines with Jenkins, and GitHub Actions.
- Collaborated cross-functionally with data and dev teams to design scalable RPA workflows and integration tests that ensured system reliability post-HSBC merger.
- Partnered with product owners and QA leads to communicate technical strategies and ensure smooth production releases.

Software Engineer – SDET | *Royal Bank of Canada (via Capgemini Inc.) | May 2022 – Dec 2024*

- Developed and deployed 50+ RPA bots automating the migration of 20,000+ clients and 500,000+ accounts into RBC systems, replacing $5M in manual work.
- Designed and implemented end-to-end UI and API automation frameworks using Cypress and Robot Framework, improving frontend reliability and validating RESTful services.
- Integrated Python data pipelines (pandas, NumPy, openpyxl) for large-scale validation and ingestion of financial datasets.
- Collaborated in Agile sprints, contributing to sprint planning, peer reviews, and release retrospectives.

Financial Advisor – Imperial Service (IIROC Licensed) | *CIBC | May 2018 – Feb 2021*

- Communicated complex financial concepts to diverse clients, providing actionable insights grounded in industry knowledge.
- Ranked Top 3% of 247 advisors in Calgary (Imperial Club Award, 2020) through effective client relationship management and analytical problem-solving.
- Collaborated with cross-functional banking teams to launch a new digital branch, training staff and improving workflow efficiency.
- Balanced client advisory with leadership duties in compliance, communication, and operational oversight.

EDUCATION

Diploma, Software Engineering — *BrainStation | Mar 2026*
Certificate, Data Analytics, Big Data & Predictive Analytics — *Toronto Metropolitan University (formerly Ryerson) | Apr 2022*
Bachelor of Applied Science, Civil Engineering — *University of Windsor | Oct 2016*

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, DOM, REST APIs, Responsive Design
Backend: Node.js, Express.js, Web APIs, RESTful Services
Database: MySQL, SQL, Data Modeling
Testing & QA: React Testing Library, Vitest, Cypress, Selenium, Robot Framework, Postman, API & UI Automation
DevOps & CI/CD: Git, GitHub, GitHub Actions, Jenkins, Docker, Heroku, Webpack
Methodologies & Tools: Agile/Scrum, Jira, Confluence, Code Reviews, Version Control
